Patient Responsibility Policy

Patients are financially responsible for services rendered without a valid referral, for non-covered services, out-of-network services, or services that your medical insurance provider determines in advance are not medically necessary.

Medicaid/Medicare: Our office does not accept Medicaid or Medicare. You are financially responsible for entire cost of all Medicaid/Medicare office visits.

- **Provider Office Visits:** It is your responsibility to confirm/verify with your insurance provider prior to office visits if the treating physician is in or out-of-network. If you visit an out-of-network provider's office, you are financially responsible for entire cost of the visit.
 - **Lab and Test Services:** Please use participating commercial lab(s) or specific participating hospitals covered under your plan. It is your responsibility to verify/confirm prior to services being rendered if participating commercial lab(s) and hospitals are in or out-of-network. You will be financially responsible for the cost of lab services and testing provided at non-participating locations not covered by your plan.
 - **Medically Necessary Services:** Our office may seek payment from you for any services your insurance provider determines in advance are not medically necessary.
-

I have read and understand Eckardt Johanning MD's Patient Responsibility Policy.

- I understand that Eckardt Johanning MD does not accept Medicare and Medicaid; and that I am financially responsible for entire cost of all office visits.
- I understand that I am financially responsible for entire cost of all out-of-network office visits.
- I understand that I am financially responsible for entire cost of all services determined by my insurance provider to be medically unnecessary.
